THE GARCELON STAMP COMPANY

Ralph O. Garcelon

Garcelon, Jamestown, Littleton, Kenmore, Falcon, Mystic, H.E. Harris. These are names of approval houses that just about any stamp collector in North America will immediately recognize. Countless thousands of people started collecting stamps by responding to one of their advertisements.

The Garcelon Stamp Company was such a business, founded in 1932 by Ralph O. Garcelon. Ralph became a collector at the age of 10 but a few years later he discovered he loved buying and selling stamps even more than collecting them. At 21 he turned his passion into a business. Despite starting in the lean years of the great depression it soon required his full time attention. In 1939 he moved it from a room in the family farm into his new home in St. Stephen, New Brunswick. Shortly after, the company acquired its own building. By the 1950s Ralph had over 60 employees, many of them young women with business certificates. By 1962 the company settled in a large building that still stands today in St. Stephen. At its peak 150 employees worked for the company, remarkable in a town with a population of only 3,500 people at the time.

Many collectors will be surprised to learn that the company was Canadian. St. Stephen is a border town opposite Calais, Maine on the U.S. side. Early on, Ralph recognized that there was much more business to be done south of the border and that Americans would feel more comfortable ordering in their own country. Also, bulk postal rates were significantly lower in the US. For these reasons he acquired a postal box in Calais, which became the main address for the company. During the company's heyday, the volume of incoming inquires and outgoing approvals was so large that they had to be loaded in multiple large postal sacks. The sacks were driven over the Saint Croix River twice a day, six days a week, to and from the Calais post office. One mailing alone weighed in at over five tons.

During the 1950's and 1960's advertising was expanded and Garcelon became the largest business of its kind in Canada, even rivaling its US counterparts. Advertisements could be found in many a newspaper, magazine and comic book all over North America. Tens of thousands of collectors responded and purchased approvals. Customer preferences were meticulously recorded, allowing the company to individualize selections according to collectors' interests. Ralph believed in the honesty of people and the low amount of losses proved him correct.

The amount of stamps that the company handled was truly amazing. For example, one packet they sold contained fifty different Yugoslavian stamps. Purchased in full sheets, the stamps had to be manually separated, sorted and packaged. One hundred thousand packets were assembled -- a total of five million stamps!

J. William (Bill) Garcelon joined his father's business in 1957. To understand the many aspects of the business he began by starting the Williams Stamp Company, using a St Stephen address. Ralph passed away in 1972 but Bill continued on until the early 1980's, merging the two companies under the Garcelon name. I happened to meet Bill some years ago and we had a good discussion about the business. He told me that he had kept certain sections of the inventory. All the cheaper and bulkier material was sold long ago to a wholesale company in the U.K. The final price was apparently calculated by weight! Two eighteen wheel trucks hauled away the stamps.

INVENTORY OF THE GARCELON STAMP CO.

Each lot contains a specific section of the inventory. The stamps are arranged in glassine envelopes, which are marked with Scott number and quantity. Some minor errors in count or cataloguing are to be expected. However, we have examined a considerable percentage of the glassines in each lot and corrected any obvious errors. The lots are conservatively estimated in Canadian dollars.

The inventory contains very little in the way of stamps cataloguing less than two dollars, because all of the inexpensive material was sold off many years ago.

The Garcelon Company was interested primarily in multiple sales of the same single or set. From dates noted on the envelopes it appears that the stock became inactive around 1980. For these two reasons the chances of finding premium quality stamps, better shades, postmarks, varieties and specialized items are excellent.

The British Commonwealth is strong in the classic period. King George V issues are also noteworthy particularly the mint, which is often NH. Again, we feel safe in saying that they were never checked for varieties. All lots are catalogued by 2016 Scott in US dollars.

INVENTORY OF THE GARCELON STAMP CO.

- 164 ★◎ Great Britain** Starting with Line-engraved issues noting used Scott #1 (32) and #4 (110), among others; focus of this remarkable stock is on the Surface-Printed issues, majority being used with fairly large quantities (over 30) on several stamps, even high denominations such as #96 (78), 108 (30), 122 (265), also KEVII to the 10sh noting #139 + shades (90), 140 (30); KGV Seahorse (mostly used) ranging from the first printings of 1913 to re-engraved issue of 1935, with a total of 374 examples of the 2sh6p, 401 examples of the 5sh and 71 examples of the 10sh, etc. Scott US\$548,362. Detailed inventory enclosed. **Est. 30,000.00**
- 165 ★◎ Canada** Large percentage of the total catalogue value of this remarkable stock is from the Cents issues to 1908 Quebec Tercentenary, which is mostly used, various mint issues starting from Small Queen onward. Substantial quantities will definitely offer opportunities for finding plate varieties, shades, printings, better cancels, etc. Overall condition understandably is in mixed condition up to late 1920s and noticeably improves from 1930s to 1950s. Scott US\$123,927. Detailed inventory enclosed. **Est. 7,500.00**
- 166 ◎ Canada** Wholesale lot of 6,400 used stamps, mostly organized in packets of 100. Includes Scott #85 (500), 97 (1,000), 145 (1,000), 147 (700), 148 (700), 154 (200), 156 (100), 157 (500), 172 (300), 174 (1,000), 203 (200) and 209 (200). Scott US\$46,550. Detailed inventory enclosed. **Est. 2,500.00**
- 167 ★◎ British North America** Emphasis on Newfoundland mint and used in terms of quantity and catalogue value, plus some BC, New Brunswick, Nova Scotia and PEI. Understandably in mixed condition up to Scott #60, however condition noticeably improves starting with 1897 Cabot issue with strong representation of the John Guy issues, Caribou, Publicity sets, Resources issues mint and used, etc. Much of the mint in the later period is NH. Scott US\$102,620. Detailed inventory enclosed. **Est. 12,500.00**
- 168 ★◎ Newfoundland** Wholesale lot of approx 79,000 stamps (approx 90% of the total catalogue value is in used stamps), mostly organized in packets of 100. Noted large quantities of the following Scott numbers - #80 (3,700), 104 (4,000), 117 (3,600), 133 (3,500), 245 (4,000), 254 (3,600), 255 (5,600), etc. Also better valued holdings such as Scott number #54 (400), 58 mint / unused (300), 86 (1,100), 135 (2,500), 167 (1,900), etc. Scott US\$65,280. Detailed inventory enclosed. **Est. 4,000.00**
- 169 ★◎ United States** About half of the catalogue value of this impressive all-used stock is from Scott #9 to 312, noting some remarkable quantities in places (for the most part on inexpensive stamps), heavy to light quantities on scarcer stamps such as Grill issues, 1869 Pictorials, Banknotes and early Commemoratives. Aside from some questionable Washington / Franklin stamps this hoard will certainly provide plenty of opportunities for finding better postmarks, plate varieties, shades and printings, as well as good potential for acquiring high grade stamps - subjects and criteria that were for the most part overlooked decades ago. Condition is understandably mixed but we noticed a large percentage of sound stamps. Centering mostly Fine or better. Scott US\$833,845. Detailed inventory enclosed. **Est. 50,000.00**

Why collect stamps?

"...it's the attraction of something from foreign countries and the scenes of different ways of life. And there's the satisfaction that comes with the completion of a project, getting a complete set in an album. The beauty of many stamps is another main attraction."

MASSIVE LIFETIME 1890s - 1980s MINT NH INVENTORY

- 662 ★** An incredible old-time accumulation of mint Canada in 14 filing boxes. All stamps are neatly organized by Scott number in #5 glassine envelopes, each of which contains an inventory card indicating catalogue number and quantity. All stamps appear to be fresh mint NH; a spot check revealed no faulty or hinged stamps.

Catalogue value for Box I totals over \$340,000 with an average approaching \$20.00 per stamp. A further \$160,000 is prior to Scott #302 and another \$90,000 is to be found in pre-1950 back of the book material. This leaves only about \$135,000 in Elizabethan era. This latter group was in many cases catalogued as the cheapest listed variety, even though you will find better varieties that catalogue considerably higher in the Unitrade Specialized catalogue. This is particularly true in the Cameo and Centennial Issues.

In all there are over 240,000 stamps with **total Scott catalogue value of US\$725,000**. A rare opportunity to acquire such an extensive stock, suitable either to start a ready-made business or as an addition to an existing operation. A complete inventory is available upon request.

END OF AUCTION
THANK YOU

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THE CONDITIONS OF SALE

BIDDING

1. All bids are per lot, as numbered in the catalogue. Eastern Auctions Ltd. reserves the right to withdraw any lot prior to sale, to divide a lot or to group two or more.
2. The highest bidder shall prevail at one advance over the next highest bid. Should a dispute arise between bidders, the decision of the auctioneer as to the successful bidder or the re-offering or resale of the lot in dispute shall rest entirely in the judgment of the auctioneer. **On all lots sold a commission of 15% on the hammer price will be payable by the buyer.** The auctioneer shall regulate the bidding and reserves the right to refuse any bid believed by him not to be made in good faith.

PAYMENT FOR PURCHASES

3. **U.S. funds are acceptable only at the equivalent amount shown on the invoice.** Visa, MasterCard and Paypal are accepted at a charge equal to 3.5% of the hammer amount. Please include the information on your bid sheet. We also accept cheques at no extra cost.
4. Payment for lots, including those on which opinions are desired under Condition of Sale 8, shall be made as follows:

A successful mail bidder will be notified of lots purchased and must remit before the lots are sent. A person known to us, or who furnishes satisfactory references, may at our option have purchases forwarded for immediate payment. Delivery will be to the address on the bid sheet. Proof by receipt of sending at the advised address shall constitute delivery. Postage and insurance are payable by the buyer.
5. Title shall not pass to the buyer until Eastern Auctions Ltd has received full payment.
6. Buyers agree to pay for lots as specified above and no credit is extended, a late payment charge of 2% per month is added to overdue payments, minimum \$5.00.

QUALITY AND AUTHENTICITY

7. Each lot is sold as genuine and correctly described based on individual description as modified by any specific notations in this catalogue including (but not restricted to) “Key to Cataloguing”.
 - (a) **QUALITY.** Any lot, description of which is incorrect, is returnable within forty-five days from closing date of auction. If the opinion of a mutually acceptable authority is desired, this period will be extended as noted in Condition 8. All disputed lots must be returned intact in the condition received. Photographed lots are not returnable on account of centering or perforations. Lots containing more than twenty stamps, described “as is”, or described as having faults are not returnable for any reason. Bidders who have had an opportunity to examine the lots prior to the sale may not return the lots.
 - (b) **AUTHENTICITY.** Any lot, which is declared other than genuine by a mutually acceptable authority is returnable, provided the lot is received within a period of four weeks from the date of the auction. Proof that a “mutually acceptable authority” declines to express an opinion is not normally grounds for the return of a lot.
 - (c) Returns must be made by registered mail.
 - (d) Lots marked or encapsulated by an expert committee are not returnable for any reason.
 - (e) Lots accompanied by an existing certificate are not returnable.

EXTENSION OF TIME

8. When an opinion from an acceptable authority is necessary the buyer must request an extension from Eastern Auctions Ltd. prior to the auction. The buyer must pay for the lot in full (a refund will be issued in the event of an unfavourable opinion). Eastern Auctions Ltd. will then submit the lot on the buyer’s behalf to one of the following:
 - Vincent Greene Foundation (Canada and BNA)
 - Philatelic Foundation (USA)
 - BPA or RPSL (British Commonwealth)
 - Sergio Sismondo (World except USA)

EXPENSES OF CERTIFICATION

9. Expenses shall be borne by the buyer except where the lot is other than as described and is returned within the conditions set forth above. Our responsibility is expressly limited to:
- (a) The actual cost of the opinion if up to \$30.00 or less, or
 - (b) The cost of the opinion up to 5% of the sale price but not exceeding a maximum of \$100.00.
 - (c) We are not responsible for expenses on the return of any lot.

SALES TAXES

10. Canadian residents will be charged GST or HST as appropriate for their mailing address. Foreign residents are liable for GST only on the buyer's premium.

CONDITION

The various grading of stamps are in order; **Extremely Fine; Very Fine; Fine and Very Good**. In the case of sets, large blocks, sheets, etc., the condition quoted represents the average and quality above and below this standard can be expected. Minor perf separation can be expected on larger multiples.

Mixed condition: in large lots, a range of condition can be expected, from small faults to Very Fine.

GUM

NH	Never Hinged – with full original gum in Post Office state and unmounted.
LH	Lightly Hinged – with full original gum showing some evidence of a previous hinge.
OG	Original gum – showing some evidence of a previous hinge, a portion of which may still be present.
Part OG	Part original gum.
Unused	Unused without original gum, or regummed.
Ungummed	Without gum as issued.

A NOTE ON HINGING

Bidders are reminded that, in accordance with industry standards, hinging is not described with respect to used stamps or stamps and proofs that were printed without gum. Hinging on these items is irrelevant to their condition and value. If hinging is important to you in such cases please contact us before bidding and request further information. **We will not accept the return of used stamps or ungummed items due to hinging.**

Hinging on mint stamps is always disclosed, however, never hinged status should not be expected unless specifically stated “never hinged” or “NH”.

ESTIMATED VALUES

If an estimated cash value is given, it is shown in the description and always indicated by the abbreviation “Est.”. It is used where the lot is large or where the actual value has little relation to the catalogue price. **It represents the auctioneer's appraisal of the true CASH value of a lot and the figure is invariably close to the actual realization.** It is useless for mail bidders to list any bids that are only a low proportion of such estimates.
